

## MIDI | Digital Pressurisation Units

Suitable for maintaining pressure in large domestic and commercial sealed heating systems, chilled water systems, refrigeration units and industrial cooling systems.

CORE Midi units feature continuously rated brass peripheral pumps, are exceptionally easy to install and commission and are suitable for either floor or wall mounting.

### Features

- Suitable for sealed systems of up to 150,000 litres
- Single (Duty) or twin (duty-standby pump options)
- 3.5/4.1 bar cold fill pressure
- 8 litre tank capacity
- Compact size, wall or floor mounting
- Digital control system and LCD graphic display
- Automatic system fill and top-up
- Easy to install and set up
- High flow, KIWA approved fill valve
- Inlet and outlet configurable for left or right connection with flexible hoses (supplied)
- Category 5 backflow protection, Type AB air gap, weir overflow and warning pipe
- BMS output via Modbus RTU
- 2 year warranty

### Applications

- Maintaining system pressure in large domestic and commercial sealed heating systems
- Maintaining system pressure in chilled water systems, refrigeration units and industrial cooling systems
