

MINI | Digital Pressurisation Units

Suitable for maintaining pressure in large domestic and small commercial sealed heating systems, chilled water systems, refrigeration units and industrial cooling systems.

CORE Mini units are exceptionally easy to install and commission and are housed in a compact and robust enclosure suitable for wall mounting.

Features

- Suitable for sealed systems of up to 6,000 litres
- Single (Duty) or twin (duty-standby) pump options
- 3.0 bar cold fill pressure
- 2 litre tank capacity
- Compact design, wall mounting
- Digital control system and LED display
- Automated system top-up
- Easy to install and set up
- High flow, KIWA approved fill valve
- Outlet configurable for left or right connection with flexible hose (supplied)
- Category 5 backflow protection, Type AB air gap, weir overflow and warning pipe
- 2 year warranty

Applications

- Maintaining system pressure in large domestic and commercial sealed heating systems
- Maintaining system pressure in chilled water systems, refrigeration units and industrial cooling systems
